

## **EXCITING RANGE OF GOLF SIMULATORS**

At Sports Simulator, we take pride in providing our customers with a wide range of golf-related simulations that cater to their diverse interests and skill levels. We understand that every golfer is different, and that's why we offer a variety of software simulations that provide unique and engaging golfing experiences. With a wide range of golf software options you are sure to find something that caters for the whole family.

# GSX GOLF

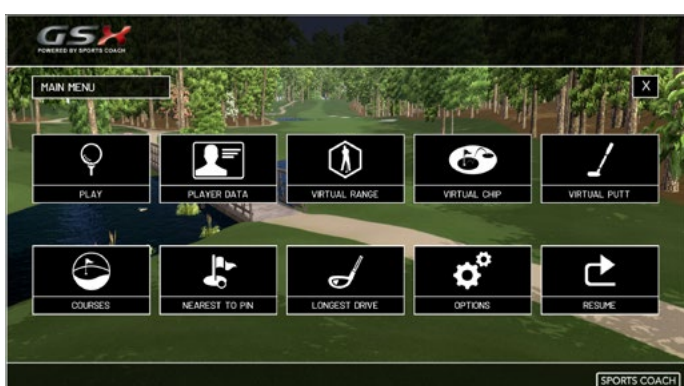

The GSX Golf Simulator provided by Sports Simulator offers an unparalleled level of realism with its advanced technology and high definition graphics. The 3D rendering of golf courses is so accurate that it can be difficult to differentiate between the simulated course and the real course. The graphics of buildings, trees, plants, fauna, grasses, and water reflections are all realistic representations of the original. Additionally, 3D animations include flying birds, floating ducks, and moving golf carts, creating an immersive experience.

The playing conditions are incredibly realistic, with green speeds matching the stimp speed of the green. Users can select weather conditions that include rain and wind, which affects the leaves on trees, sways bushes, and even moves long grass. With the GSX HD Golf Simulator software, golfers can access the most advanced graphics and accurate detection system available on the market, with free software updates for life.

Golf enthusiasts can enjoy a round of golf or analyze their shots on the virtual range, virtual chip, and virtual putting green all year round, with access to over 65 GSX golf courses and over 100 courses currently under development. Thanks to the GSX Golf Simulator, golfers can experience an authentic and immersive golfing experience, with advanced graphics and realistic playing conditions.

## SOFTWARE

Longest Drive players to compete in a longest drive competition on Par 4's and 5's for each course. Choose to play from the competition tee, mens tee or forward position (ladies). Choose from bright, normal, cloudy or rain conditions and select the wind strength to increase difficulty. Players are offered 1, 2 or 3 attempts, and after each shot, a leader board is shown listing the leading players in order of their distance. Up to four contests can be played at once - men's, ladies, seniors and juniors, and play can be switched from right to left handed at any time.

Nearest to Pin is a competition mode that allows players to compete on any Par 3 holes on any course. Players can choose to set the contest from the competition tee, mens tee or forward position (ladies). Choose the weather conditions from bright, normal, cloudy or rain and set the wind type to increase difficulty. Players then compete to hit as close to the pin as they can with the system offering 1, 2 or 3 attempts per player. During the contest, any shot that lands on the green gets an automatic reverse replay. After every shot the leader board is shown listing the leading

# VIRTUAL RANGE

Select the Virtual Range to practise all types of drives, long iron and mid iron shots. During play the analysis pane on the left side of the screen is updated after each shot showing distance, carry, roll, ball speed, club face angle, club head path, side spin, back spin, horizontal and vertical launch angles and offline accuracy

# VIRTUAL CHIPPING

Virtual Chipping allows players to practice all types of mid iron shorts and short iron shots. Players can set the conditions to bright, cloudy, normal or rain, and set the wind to fine or gusty to alter the flight performance. Select a club and choose to play from any position. Play as many practice chips as you like, then review on screen club averages showing distance, carry, roll, to pin distance, ball speed, club speed, face angle, swing path, side spin, back spin and launch angle.

# VIRTUAL PUTTING

Using the USB 3.0 Super Speed Camera Technology, putting is the world's most accurate, giving an extremely high precision and realistic representation of the putt. Measuring ball direction within a degree and ball speed to 1/100th of a mile an hour, putts can be measured accurately over the contoured 3 dimensional green, for each particular putt played.

# GSX GOLF COURSES

Play and Practise on 65 Golf Courses from around the World
