

GARAGE CONVERTED INTO THE ULTIMATE ACADEMY WITH THE SUPER SIMULATOR AND GYM FOR ENGLAND'S TOP CRICKETER

Ben approached Cre8tive Rooms last year with the idea of converting his new triple garage into a Super Simulator Academy. This he had long wanted but not been able to achieve due to the restricted ceiling height of the garage. What was delivered was a turnkey solution which saw the triple garage split into a double garage for the Super Simulator and home gym plus a separate single garage complete with racking for storage. Our UK distributor and specialist installers work are found at www.cre8tiverooms.com The Super Simulator itself uses the Sports Coach GSX Golf Simulator technology, the Sports Simulator technology and features the two super speed camera system for the very highest levels of accuracy. As well as keeping toned, fit and ready for action with the England National and Durham county cricket teams, with Ben's extensive personal gym. Ben is now able to relax with plenty of entertainment on the Golf Simulator, Sports Simulator and Racing Simulator all on this exciting Super Simulator. There are currently 65 golf courses playable on GSX the world's best golf graphics engine, whilst the Sports Simulator has 32+ sports including Ben's own cricket, where he has the option to practise his own bowling, fielding and batting. The Sports Simulator is regularly updated free of charge; currently offering 685+ game challenges, 2,468+ sporting venues and shortly another 8 sports. The Racing Simulator has 200+ race and road cars competing on over 140+ spectacular track layouts, from around the world. Review our technology at www.sportssimulator.com
