

S SPORTS SIMULATOR OFFICE ENTERTAINMENT

SPORTS SIMULATORS ARE CORE WITHIN THIS GAMING, AR-VR BUSINESS HUB @ HANGAR K, LOCATED IN WESTERN BELGIUM

Hangar K's explicit ambition is to push start-up entrepreneurship to shape the West Flemish brain gain. This co-creation hub in Kortrijk helps young graduates that would like to do business and guides their growth through various support programs and scale-ups alongside its network of corporates and experts. Hangar K wants to be the answer to all the difficult issues of entrepreneurship through inspiration, guidance, expertise and knowledge. One new start-up, SportsQbic, has set up their entertainment business at Hangar K and it is already attracting interest with their Sports Simulator that they demonstrate in their offices. The system, housed in a 3.5m high housing utilises powerful Barco projectors and offers a host of sports that can be played. The most popular sports are football, handball, hockey, hunting and golf, and its 3.5m height also allows for throwing and serving sports such as Tennis and Basketball. SportsQbic aims to introduce the Ultimate Sports Simulator into an exciting range of primary markets including sports bars, fitness centres, shopping malls, hotels, offices and private homes. www.sportsimadv.be
