

SOUTH AFRICA HAVE SETUP AN INCREDIBLE SPORTS CAFÉ, WHERE FRIENDS AND FAMILY CAN EXPLORE A NEW REALITY

Simulated Sports has been setup within an air-conditioned arena beside a leading driving range, so visitors to both simulator centre and range, can choose between entertainment and practise. Most are preferring the simulated sports café with its 40 multiple sports, golf, racing, shooting and flight simulators. Entertaining families of all ages they are often hosting birthday parties, where players are competing in competitions using all five simulator leaderboards. Whilst companies are regularly organising corporate functions to impress their clients or inspiring teamwork and build connections between work colleagues. Combined with the Café approach, they are the go-to stop-off point for the driving range customers wishing to have an espresso, americano, latte, cappuccino, decaf, flat white or a chilled drink. As well as a great excuse for meeting friends for a coffee date, whilst we are here why don't we treat ourselves and play football or rugby or tennis or a round of golf at a famous course, or drive around a formula one circuit, or shoot some zombies, or fly Concorde to new york, the choices for a fun time are endless. The perfect environment to be active within an enjoyable atmosphere of adrenaline, action and adventure, in a world just beyond reality. Families now have a safe environment to let kids unleash their explosive energy in the experience of a lifetime. Click to review www.sportssimulator/post/simulatedsportscafe
