

# IMMERSE YOURSELF IN THE EXHILARATING THRILL AND EXCITEMENT OF SESSION PLAY ON THE SPORTS SIMULATOR.

Experience the thrill of "Session Play" on the Sports Simulator, a groundbreaking feature that brings interactive sports excitement to a whole new level. With Session Play, immerse yourself in a highly personalised and engaging simulator experience that caters to all your sporting desires. One standout feature is the ability to create your own player by customising a character with a name, avatar, or a photo taken with the Player Camera, adding a unique, immersive dimension to your gameplay. Choose from a wide range of sports and challenges, with options to configure between 1 and 6 sports for players to choose from, ensuring tailored gameplay for all preferences. For establishment administrators, managing gameplay sessions is straightforward, with options to set time limits and add additional paid time as needed. Real-time session monitoring keeps users aware of their remaining time, enhancing their focus on enjoying the game. Session Play accommodates various play styles, from solo play to all-vs-all formats and team competitions, making it ideal for any occasion. Enhance user experience and promote your venue with a pre-game promotional video, customised splash screens with your branding, and a screensaver displaying promotional content during idle times. Custom branding options ensure your company's identity is consistently represented throughout the user experience. Choose Session Play for its personalisation, variety, ease of use, real-time monitoring, flexible play styles and enhanced branding. Experience the future of interactive sports with Session Play on the Sports Simulator, offering fun, competition, and a unique way to enjoy sports like never before.
