

SOCIAL ENTERTAINMENT IS NOW TAKEN TO THE NEXT LEVEL WITH GAME CHALLENGES, THAT ARE FUN & VERY ADDICTIVE

Many are familiar with outdoor driving ranges and entertainment facilities that offer outdoor Golf target games, but with fixed targets to aim for, the scope for challenges and the entertainment available is very limited. Sports Simulator takes Golf to the next level with an indoor virtual experience currently boasting 10 Unique Golf Target Challenges in addition to the existing Golf Simulator, Foot Golf and Disc Golf, all integrated into the complete Super Simulator package also offering 32+ Sports, 694+ Challenges and 2,468+ Sporting Venues. Contest Golf consists of various interactive challenges with fixed and moving targets that vary in distance, size and colour. Players are rewarded with enhanced graphical effects when points are scored. Numerous players can compete with these addictive fun games on a single simulator, with local or global leaderboards on networked simulators, as well as Flight Analysis, Club Analysis and Digital Video. Current challenges available include Pitch, Chip, Targets, Billiards, Eliminate, Blast, Complete, Snooker, Pool and Splash – all of which can be played in any of seven exciting environments New York, London, Paris, Desert, Polar, Forest and Range. With a low setup cost in comparison to outdoor sports entertainment centres, the variety of sports makes the sports simulator ideal for existing golf facilities, sports bars, leisure centres, hotels and family entertainment centres, ensuring a very quick return of investment. The Sports Simulator can also be seamlessly integrated into our existing leading GSX and GPS Golf Simulators without the need for additional hardware. Review Contest Golf at www.sportssimulator.com
