

AMERICA'S FAMOUS BIG APPLE NOW FULLY PLAYABLE, ALONG WITH US'S MOST ICONIC BRANDS & BUILDINGS AS BACKDROP

New York City can now be played upon the world's most fun and accurate Sports Simulator, satisfying many requests. Famous places such as New York Stock Exchange, Statue of Liberty, Times Square, Manhattan, St. Patrick's Cathedral, Empire State Building, Flatiron Building, Woolworth Building, 40 Wall Street, 30 Rockefeller Plaza, Chrysler Building, One World Trade Center, MetLife Building, Plaza Hotel, and Broadway, all viewed from Central Park. The most popular 30+ Sports in the United States, such as Football, Golf, Rugby, Gridiron, Tennis, Baseball, Cricket, and Basketball, can be played with real Game Challenges, like Penalties etc. There has never been a better time to commence Sports Entertainment Centers, with Landlords having to charge minimal rent for Offices and Retail premises. As more businesses have decided that working from home is permanent, most shoppers now only buy online, so retail chains close daily. Malls are having to adapt to be much more about "the experience" with safe cashless payment and social distancing to encourage customers to return regularly. New York-themed bars & restaurants are now easy to create, attracting the majority of sports fans, who can play NY's famous stadiums as well as City scenes. Any major city can be recreated from around the world; Paris and Dubai now in development, which famous city should we create next? Shortly accuracy and nearest to pin are released, with 4 daytime and nighttime game challenges.
