

## AQUA TOWER RESIDENTS ENJOY THEIR SUPER SIMULATOR, AN INTEGRAL PART OF THE INCREDIBLE ENTERTAINMENT CENTRE

Aquastone one of the largest Qatari investors has successfully constructed Viva Bahriya's seven towers at the elegant Pearl-Qatar. This prestigious man-made island is within the stunning Porto Arabia's harbour district. Viva Bahriya offers stunning apartments for annual rent or to buy, for those seeking a sophisticated seafront lifestyle. These fully furnished apartments boast the highest fit-out finishings and luxury amenities akin to those of any 5-star hotel residence. In the Riviera-like Aqua Suites district, they rent out superior apartments to clients seeking a sophisticated beach lifestyle and a completely 'hassle-free' living. The luxury towers offer a range of amenities including lobby cafés, business centres, gyms, saunas, kids' playing areas, entertainment centres, beach clubs, exercise and games rooms, private theatre, basement car parking and 24/7 concierge and beach attendant service. To create the ultimate community atmosphere they have installed the multifunctional sports room. Residents along with their guests can play 40 different sports on the UHD Premium Sports Simulator, with over 600 game challenges and 2,400+ worldwide sporting venues. Middle Eastern residents are particularly impressed being able to play the 2022 World Cup football stadiums, as well as the most popular local sports, such as Tennis, Basketball, Cricket, Golf, Handball, Volleyball and Soccer Futsal, whilst ex-pats can play their own national sports within their own famous stadiums and arenas.
