

NEW PLAYABLE STADIUMS NOW AVAILABLE ON THE SPORTS SIMULATOR FOR AN UNMATCHED SPORTING EXPERIENCE

Experience the latest stadiums with new playable venues on the Sports Simulator, leading the evolution of sports entertainment by integrating state-of-the-art stadiums into its software. Football stadiums are undergoing extensive redesigns, and the newly redeveloped Real Madrid stadium is now available for fans to experience in a whole new way. These cutting-edge fan experience areas are perfect for installing Sports Simulators, allowing visitors to engage with their favourite sports in an immersive environment. By incorporating the latest stadiums, the software provides a realistic, interactive experience mirroring the excitement of actual venues. With over 3,500 playable stadiums and arenas, Sports Simulator is a leader in indoor sports entertainment, updating stadiums to reflect real-life enhancements. The newly developed Real Madrid stadium stands out, enabling fans to explore and play in a virtual environment replicating its grandeur and innovation. Existing Sports Simulator customers can access these new stadiums seamlessly and at no additional cost, ensuring they continually offer the best sports entertainment experience. As football stadiums evolve, Sports Simulator remains dedicated to providing the most comprehensive and interactive sports simulation experience, integrating new and redeveloped stadiums for fans to enjoy the latest in sports entertainment technology. Sports Simulator offers an unparalleled virtual experience, making it the ultimate tool for enhancing fan engagement in sports stadiums worldwide. Existing customers can easily update their systems to include the latest stadiums, ensuring they remain at the cutting edge of indoor sports entertainment. Click to View the Sports Simulator Blog.
