

## STOCKHOLM CLUB INSTALL GSX GOLF SIMULATOR RAISING STANDARD OF SWEDISH GOLF LESSONS FOR ITS MEMBERS

Marcus Edblad PGA Golf Professional and Swedish Long Drive Record Holder at 432 metres, runs the Norrava Golf Academy just outside Stockholm. Club Members demanded to have the most accurate indoor technology, available in the world today. After much research, the Sports Coach GSX Golf Simulator was chosen, as it consists of 2 separate 90° Super Speed Cameras. This technology very accurately measures Swing Path, Club Face Angle at Impact, Vertical Launch Angle, Horizontal Launch Angle, Club Speed, Ball Speed, Back Spin, Side Spin. These measurements along with 3 Dimensional Course Topography, the GSX accurately calculates Hit Factor, Carry, Distance, Flight Time, Shot Height, To Pin and Elevation, ensuring Norrava Members have the highest levels of Ball Flight Analysis, available in Sweden. Academy Coaching regularly varies between 1 to 1 coaching from Sweden's finest teacher and large group lessons. Improvements in the standard of Norrava Golf are already noted, by their winning success in Stockholm Competitions. The Club had the wooden building constructed, so golf is playable year-round, on very realistic championship courses. An important factor with the chosen Technology is the ability to upgrade, under consideration for 2021, is the Digital Video Analysis and the Sports Simulator software
