

## ENTERTAINMENT TAKEN TO THE NEXT LEVEL FOR HOMES, PRESTIGE OFFICES, HOTELS OR THE RESIDENTIAL COMMUNITY

Ultimate indoor recreation is now available featuring the worlds leading 3D simulator technology that can be used within existing audiovisual setups to ensure your room gets used to the maximum throughout every day for training, sports play, fitness, education, gaming, remote office and movies. By combining the sports simulator, golf simulator, racing simulator, shooting simulator, flight simulator, virtual office, cinema and online gaming in a specialised acoustic environment, the entertainment room proves to be extremely popular with both sexes and all age groups. This amazing set up which can be configured in 4K UHD or the more popular 270° surround layout are custom-fit to match preferred room sizes and cosmetics. Practice most ball sports using real balls, play tour golf courses, drive on famous race tracks, engage in online gaming and e-sports, fly aircraft between major cities, host online meetings or watch online sporting events and concerts. The Sports Simulator forms the centrepiece and offers 28 of the most popular sports with 568 game challenges that can be played in any one of 2,368 sporting venues from around the world. An internet connection ensures that all 12 future sports in development and additional 400+stadiums and 200+ further games can be easily downloaded free of charge making the entertainment room ideal for your own private home, office, resort hotel, apartment or residential community.
