

SIM STUDIO HAS JUST OPENED TO SPORTS FANS WITHIN SURREY, PLAY THE ENTIRE RANGE OF PLAYABLE SIMULATORS

The Sports Coach Simulator Factory demonstration centre has been transformed, after many requests from local residents, who wished to play. Sim Studio offers two Surround Super Simulators, two Premium Super Simulators, two Racing Simulators and the Shooting Simulator. They are already proving very popular with beginners through to seasoned professionals, with their exclusive indoor sports entertainment and training facility offering over 50 Sports to be played. Group Bookings can book a bay for their own group or reserve up to six bays; offer food and drink packages to suit the parties' needs and budget. Popular with sports team socials, hen and stag parties, birthday celebrations with their mates and family reunions. Corporate fun team building activities, or something elaborate like a fundraising night or brand showcase, they tailor-make packages to suit their needs and deliver fantastic and memorable events. The Sim Studio is not just for grown-ups! Their kid's party packages take the headache out of party planning, with exclusive venue hire and gameplay for up to twelve children, including a kid-friendly menu. The Sim Studio replicates the Family Entertainment Academy business plan, as shown on the Sports Simulator website, so the leisure and entertainment industry can review a fully functional centre directly at the factory.
